

East Forsyth Band Website & CMS Guide

Audience: **Super Admins only** (Site Administrators)

Organization: East Forsyth Band Boosters / East Forsyth High School Band (Blue Regiment)

Public site: <https://efhsband.org>

Staff CMS: <https://efhsband.org/admin>

Document: Super Admin operations guide (PDF)

Last updated: September 7, 2026

Restricted document. This PDF is available only to Super Admin accounts. Editors, officers with limited permissions, and the public cannot open it. The Dashboard **Website Guide** card appears only for Super Admins, and the download URL is blocked for everyone else.

Scope: Matches live production on **efhsband.org** as of this date (Cloudflare Worker efhsband-live). After a deploy, hard-refresh the CMS (Ctrl+Shift+R) so you are not looking at a cached toolbar or page.

1. System overview

The East Forsyth Band website is a public community site plus a private Content Management System (CMS) at /admin. Production is a **Cloudflare Worker** (efhsband-live) with a D1 database — not Cloudflare Pages. CMS sessions last **24 hours**. Content saved in the CMS publishes to the live public site.

As a Super Admin you can use every CMS tool, manage other users' roles and permissions, open the Security Audit Log, preview the site during maintenance mode, and download this guide.

View Site on the CMS Dashboard opens the public homepage in the **same window** (not a new tab). Use the browser Back button to return to the CMS.

2. Roles

Role	How it is set	What it means
Super Admin	User Management → Role = Super Admin (role = admin)	Automatic access to every permission and every CMS panel. Can delete meeting minutes, open Security Log, download this guide, grant Super Admin to others, and preview the public site during maintenance.
Editor	Role = Editor	Access only to tools granted by global permissions and page-level checkboxes. Cannot open Security Log or this Website Guide. Cannot delete minutes.

Only an existing Super Admin can create or promote another Super Admin. Editors with users permission can manage other editors, but cannot assign the Super Admin role.

3. What every logged-in user can do

These items are available to **any active CMS account** (Editor or Super Admin), even with no extra permissions:

- **Dashboard** (permission-filtered cards) and **View Site** (same window)
- **Staff Email** — compose and send rich-text mail to CMS users (with attachments)
- **Change Password** and **Log Out**
- **Calendar Events — view only** — browse events by month (◀ / This month / ▶). Create, edit, and delete still require calendar permissions
- **Meeting Minutes — view / print** — open minutes by date. Add / edit / upload require secretary permission; delete is Super Admin only

4. Permissions reference (grantable scopes)

Assign these in **User Management**. Super Admins already have all of them. Security Log access is **not** a grantable permission.

4.1 Global permissions

Permission	Checkbox label	What the user can access
site	Site settings, home text, logo	Site Settings (title, hero, footer, logo, maintenance mode, utility links, Boosters Pay dues toggle); Social Media (account links, Instagram gallery auto-post, Facebook/Zernio)
pages	Add/remove/manage all pages	Full page catalog, page settings, and edit any page body (including Fundraising photo insert)
sponsors	Manage sponsors	Manage sponsors list (add/edit/delete/reorder, logos, tiers, fly-in timing, Gold PDF). Related page copy still needs page permissions if editing Sponsors / Become a Sponsor pages
contact	Manage contact form topics	Contact Form topics, CMS user recipients (multiple allowed), delivery emails, delivery status, and Recent Messages history
staff	Manage directors & staff	Directors & Staff directory (photos, roles, bios, reorder)
boosters	Manage booster members	Booster Members directory; may also help with Boosters page content
users	Manage users	User Management — invite editors, set permissions, activate/disable, see last login. Cannot promote Super Admins unless the actor is Super Admin
mail	Send mail to CMS users	Mail helper scope (Staff Email UI is already open to all logged-in users)

events	Create calendar events (edit/delete your own)	Create events; edit/delete events they created (legacy unowned rows remain editable by calendar editors)
events:manage	Manage all calendar events	Edit/delete any calendar event
photos	Upload/delete photos	Photos tab: Home/Gallery uploads, captions, alt text, reorder, delete. Instagram auto-post when connected
minutes	Meeting Minutes Secretary (add/edit)	Add Minutes, Upload .docx, and edit within the 10-day meeting-date window
forms	Forms (create, edit, and delete public forms)	Form Builder. Super Admin and President always have access; extra users can also be granted inside Form Builder settings
treasurer	Treasurer (Ledger + Square Checkout)	Ledger and Checkout
president	President (Ledger + Square Checkout)	Ledger, Checkout, Schedule Board, and Form Builder
vice-president	Vice President (Square Checkout)	Checkout and Schedule Board (not Ledger)

Never grantable: security-log, security, audit, audit-log, and admin-audit are stripped if present in a user's permission JSON. Security Log is Super Admin role only.

4.2 Page-level permissions

In addition to global scopes, User Management lists a checkbox per CMS page: `page:<slug>`. That grants visual editing of that page's content without giving full pages management. Built-in form pages (Letterman Jacket, custom Form Builder pages) and In-Kind are not listed as page checkboxes; they are managed under Forms.

Page	Slug / permission	Public URL	Who typically edits
Home	<code>page:home</code>	/	Super Admin or site/pages editors (hero text also ties to Site Settings)
Calendar	<code>page:calendar</code>	/calendar.html	Page editors for header/instructions; the live board is edited in Schedule Board
Contact	<code>page:contact</code>	/contact.html	Page copy; topics/messages use contact
Boosters	<code>page:boosters</code>	/boosters.html	Page intro/body; members use boosters; meetings come from Schedule Board when What = Meetings
Student Resources	<code>page:resources</code>	/resources.html	Page editors

Fundraising	page:fundraising	/fundraising.html	Page editors — click body, then Photo on the Formatting bar to insert images
Gallery	page:gallery	/gallery.html	Page header/intro; photos themselves use the Photos tab
Sponsors	page:sponsors	/sponsors.html	Page header/intro/callout; businesses use sponsors
Become a Sponsor	page:become-a-sponsor	/become-a-sponsor.html	Package cards and inquiry page copy
Directors & Staff	page:directors	/directors.html	Page text; directory people use staff
Ensembles	page:ensembles	/ensembles.html	Unlocks Manage → Ensemble body editor

pages (global) includes the ability to add/remove pages and change page settings for all of the above.

4.3 Suggested officer permission sets

Officer / role	Recommended permissions
Site Administrator	Super Admin role (this guide + Security Log + all tools)
Treasurer	treasurer (Ledger + Checkout); often also sponsors
President	president (Ledger + Checkout + Schedule Board + Form Builder); add other scopes as needed
Vice President	vice-president (Checkout + Schedule Board)
Minutes Secretary	minutes
Calendar editor	events (or events:manage for full control). Schedule Board itself is Super Admin / President / Vice President
Forms editor	forms, or grant the person inside Form Builder → Who can use Form Builder
Sponsors coordinator	sponsors + optionally page:sponsors / page:become-a-sponsor
Photo manager	photos (+ page:gallery / page:fundraising if they also edit those pages)
Contact coordinator	contact + optionally page:contact
Staff directory editor	staff or page:directors

5. Security Audit Log (Super Admin only)

Open from Dashboard (red-black **Security Log** card, always last) or Manage → Security Log.

- **Who:** Super Admin role only. Cannot be granted to editors.
- **What you can do:** View, filter, paginate (5 entries per page with « ‹ Page N of M › »), and download/print the full PDF export.
- **What you cannot do:** Edit, delete, or clear log entries — even as Super Admin. The vault is append-only.
- **Storage:** Encrypted at rest (AES-256-GCM) with SHA-256 integrity checks in D1 (admin_audit_log). Isolated from public pages, logos, and site content.
- **Access logging:** Opening the first page of the preview writes `security.log.view`. PDF export writes `security.log.export`. Pager clicks do not write a new view entry.

5.1 What gets logged (examples)

- Successful and failed logins (`login.failed` includes IP)
- Logouts
- CMS mutations (pages, users, events, sponsors, staff, boosters, minutes, photos, contact topics, forms, ledger, site settings, etc.)
- Staff Email sends (separate mail audit detail)
- Security log view / PDF export

Sensitive fields (passwords, tokens, raw attachments) are redacted from stored metadata.

6. CMS Dashboard & navigation

After login, Dashboard cards appear based on permissions. Super Admin cards include:

- **Website Guide** (this PDF) — Super Admin only
- **Checkout** — Square officer payments
- **Staff Email**
- **Meeting Minutes**, Sponsors tools, Directors & Staff, Ensemble, Booster Members
- **Ledger**, **Contact Form**, **Forms**, User Management, Social Media
- **Schedule Board** — public calendar drag-and-drop editor
- **Security Log** — always pinned last

Left nav mirrors those tools. Mobile uses the Menu bar with the same permission filtering. **View Site** (top right of Dashboard) loads <https://efhsband.org> in the same window.

7. CMS tools (detailed)

7.1 Staff Email

Who: Any logged-in user.

Rich-text compose, CMS recipients, optional extra addresses, attachments (up to 5 files / ~4 MB each / ~10 MB total). Reply-To uses the sender's username (should be a real email). Delivery uses Resend when configured.

7.2 Pages (visual editor)

Who: `pages` or `page:<slug>`.

Live preview editing with bold/italic/underline/color/size. Super Admins / `pages` users can change page settings. Unsaved changes warn before leaving. Page shortcuts appear under Pages for site admins.

Fundraising photos: Open Fundraising, click into the body text, then click **Photo** on the Formatting bar (next to Size). Upload a new image or pick one from the gallery. The photo inserts at the cursor with text wrap. Drag a corner to resize, or use Delete photo. Click **Save Changes** to publish. Large images are compressed in the browser before upload. These body uploads stay out of the public Gallery grid.

Fundraising saves can optionally email the fundraising subscriber list (Notify email list is on by default; turn it off for grammar-only edits).

7.3 Directors & Staff

Who: `staff` or `directors` page access.

Add/edit/delete people with photo, name, role, bio; drag to reorder the public directory.

7.4 Ensemble

Who: `page:ensembles` or `pages`.

Floating editor for Ensembles page body content under the hero.

7.5 Band Boosters → Booster Members

Who: `boosters` or `Boosters` page access.

Officer/member directory with photo, role, bio, drag reorder.

7.6 Band Boosters → Meeting Minutes

Action	Who
View / print	Any logged-in CMS user
Add Minutes / Upload .docx / edit	minutes (Meeting Minutes Secretary) or Super Admin
Delete	Super Admin only

- Pick a meeting date to open the document in the viewer (mobile uses a compact full-page viewer with Back).
- Secretaries use **Add Minutes** (letterhead editor) or **Upload .docx** (up to about 8 MB). Meeting date can come from the document Date field or filename.
- Non-Super Admin editors may edit only within **10 days of the meeting date** (not from upload time).
- Canceling Add/Edit confirms discarding unsaved changes.
- Minutes are staff-only — never published on the public Boosters page.

7.7 Calendar Events

Action	Who
Browse by month	Any logged-in CMS user
Create / edit own / delete own	events
Edit / delete any	events:manage or Super Admin

- CMS list is filtered by month with < / This month / > controls.
- Supports rich titles/descriptions, repeating series, exceptions, and Boosters meeting placement (non-repeating only). Prefer Schedule Board for day-to-day public calendar work.
- Past events remain in CMS but are hidden from the public Calendar.
- Create/update/delete also triggers best-effort **Notify Me** browser push to opted-in visitors.
- View-only users see a note and no New event form; rows show View only instead of Edit/Delete.

7.8 Schedule Board

Who: Super Admin, President, or Vice President.

This is the editor for the **public Calendar** at /calendar.html (month, week, and rundown views).

- Single-click selects; double-click (or day +) opens Create/Edit Event.
- Drag to reschedule (on phones: press-and-hold, then drag).
- The track dropdown is labeled **What** (Games, Rehearsals, Meetings, Deadlines, Trips, Other) — not Who.
- Events with What set to **Meetings** also appear on the public Boosters page.
- **Finished** emails calendar subscribers about the latest board.
- On phones, the public header/nav scrolls away with the page, and the board stays inside the viewport.

7.9 Sponsors → Manage sponsors

Who: sponsors.

- Add, edit, delete, reorder sponsors and logos
- Assign Bronze / Silver / Gold (marquee, fly-in, game-day recognition)
- Homepage fly-in timing
- Print / download Gold sponsors PDF sheet (print stays in this page; no pop-up)

7.10 Checkout

Who: treasurer, president, vice-president, or Super Admin.

Key a Square card payment: payer/entity, description, amount (minimum \$1.00), optional internal note. Card data stays with Square. Super Admin can paste Square credentials on Checkout if Cloudflare secrets are missing on that host.

7.11 Ledger

Who: treasurer, president, or Super Admin (Vice President does **not** get Ledger).

Record donors, sponsors, fundraisers, dues, and expenses. Choose cash or in-kind (fair-market value, no money exchanged). View the running list and download Excel/XML for books.

7.12 Contact Form

Who: contact or Contact page access.

Manage topics and assign one or more CMS users as recipients (login emails). Check delivery provider status; review Recent Messages (stored even if delivery fails). Clearing historical messages is an admin operations task (database cleanup), not an editor action.

On the **public** Contact page, Topic defaults to **General question** (or a topic labeled General Questions) when that topic exists, even if other topics sort first alphabetically. Rename the topic in this tab if you want the public wording to read "General Questions."

7.13 Forms (Form Builder)

Who: Super Admin, President, users with forms, or extra users granted under Form Builder → Who can use Form Builder.

- Create public forms (Jotform-style): add fields, click the canvas to edit, drag to reorder. The title becomes the public URL (for example Band Trip Form → /band-trip-form.html).
- Built-in **Letterman Jacket** order form: /letterman-jacket.html. A red deadline banner appears under the site nav. Deposits are collected in the band room (not Square on that form).
- Built-in **In-Kind Donation** form: /in-kind.html (not in the main nav). Completed PDFs email to the users selected under Email in-kind PDFs to. In-kind entries can also land on the Ledger.
- Public Sponsor/In-Kind buttons open a toast: Sponsorship Tiers → Become a Sponsor; In-Kind → the in-kind form.

7.14 User Management

Who: users (Super Admin for promoting admins).

Field	Meaning
Display name	Name shown in the CMS
Username	Login id; should be a real email for Reply-To and invites
Role	Editor or Super Admin
Active / Disabled	Disabled accounts cannot log in
Permissions	Granted scopes (Super Admin effectively has all)
Last login	Shown on each user row (Eastern time display)
Must change password	Forced until the user sets their own password

Invite flow: New user → email username, temporary password (min 8 chars), permissions → Send Invite / Save. Welcome email points to <https://efhsband.org/admin> when mail is configured.

7.15 Social Media

Who: site.

Add Instagram, YouTube, Facebook, X, and TikTok URLs for the footer social icons. Connect the band Facebook Page through Zernio to publish or schedule posts. Suggested calendar updates can be posted as one Facebook digest or ignored individually. Connect Instagram to auto-post new **Gallery** photos (utility/staff/logo uploads with negative sort order are skipped).

7.16 Site Settings

Who: site (utility/home link editing may also allow pages or home page access).

Site title, hero text, footer note, logo, maintenance mode, top utility links, and whether Boosters shows the **Pay dues** card. Social account links, Instagram auto-post, and Facebook publishing are managed under Social Media.

Maintenance mode: Public visitors go to /maintenance.html. Super Admins can still open public pages and see a gold **Super Admin preview** banner. Non-super-admin staff are treated like the public.

7.17 Photos

Who: photos.

Upload/edit/delete/reorder gallery photos (JPG, PNG, WEBP, GIF, SVG; ~2 MB server max / UI compresses to about 1.9 MB). Always include alt text. Staff photos, sponsor logos, and Fundraising body inserts use negative sort order and stay out of the public Home/Gallery grids. Multi-select upload is supported. New gallery photos can auto-post to Instagram when Social Media is connected.

8. Public website (what visitors see)

Page	URL	Notes
Home	/	Hero + Blue Regiment mark, Start Here cards, calendar highlights, photo gallery (newest 6), booster cards, sponsor marquee, optional Silver/Gold fly-in
Ensembles	/ensembles.html	Program groups
Directors & Staff	/directors.html	Staff directory
Calendar	/calendar.html	Public Schedule Board (month / week / rundown) plus email-list signup
Gallery	/gallery.html	Full photo gallery with click-to-enlarge viewer
Sponsors	/sponsors.html	Directory, Sponsor/In-Kind toast, Donate
Become a Sponsor	/become-a-sponsor.html	Bronze / Silver / Gold Square packages (linked from Sponsors/footer, not main nav)
In-Kind Donation	/in-kind.html	Public in-kind form (not in main nav)
Letterman Jacket	/letterman-jacket.html	Order form; red deadline banner under the nav sitewide

Fundraising	/fundraising.html	Campaign copy, body photos, Direct Support Donate, email-list signup
Student Resources	/resources.html	Family/student resources
Boosters	/boosters.html	Intro, meetings from Schedule Board, member directory, optional Pay dues (minutes not public)
Contact	/contact.html	School info + topic-based contact form (defaults to General question)

8.1 Shared public features

- Header branding: site logo, title, Blue Regiment mark
- Sponsor marquee sitewide under the header
- Homepage fly-in for Silver/Gold (timing editable in Manage sponsors)
- **Notify Me** browser push for calendar changes (HTTPS + supporting browser; Brave needs Google push services enabled)
- **Email list** — visitors subscribe for calendar and/or fundraising updates; reply STOP to unsubscribe
- **Add to Home** helper on mobile where supported
- Public Login / Staff Menu nav links for staff access
- On phones, the public header and nav scroll away with the page (not sticky)

9. Public payment flows

9.1 Become a Sponsor (Square)

1. Visitor chooses Bronze, Silver, or Gold (amounts/copy editable in CMS).
2. Enters business details and optional logo (~2 MB).
3. Pays by Square card when configured.
4. On success the sponsor activates in the correct tier; invoice email sends when possible.

Default benefits: Bronze = marquee; Silver = marquee + fly-in; Gold = marquee + fly-in + game-day announcement.

9.2 Donate

From Sponsors and Fundraising — donor name, amount, Square card when configured.

9.3 Boosters Pay dues

Shown on the public Boosters page when enabled in Site Settings. Square card when configured; successful/failed payments can be recorded on the Ledger.

9.4 Officer Checkout (CMS)

Described in §7.10. Requires Square: SQUARE_ACCESS_TOKEN, SQUARE_APPLICATION_ID (or SQUARE_APP_ID), optional SQUARE_LOCATION_ID, SQUARE_ENVIRONMENT. If Cloudflare secrets are missing on a host, Super

Admin can paste the same credentials on CMS → Checkout. Saved values live in the shared database and Cloudflare secrets still win when present.

10. Login, sessions & passwords

- Login: <https://efhsband.org/admin/login>
- Session: 24 hours (HttpOnly Secure cookie)
- Password minimum: 8 characters
- Failed logins clear any stale session cookie and are written to the Security Log
- Change Password is available to every logged-in user

11. Email features

- Staff Email (internal)
- User welcome invites
- Contact form topic routing + Recent Messages in CMS
- Public email list (calendar and fundraising); Schedule Board Finished and Fundraising save can notify subscribers
- Sponsor invoices from the Boosters invoice address after paid sponsorships
- In-kind (and other form) PDF emails to selected CMS users

12. Photos & media limits

- Gallery / logo / staff / booster / sponsor / Fundraising body images: JPG, PNG, WEBP, GIF, SVG; ~2 MB (browser compresses large photos first)
- Always include alt text
- Minutes DOCX uploads: up to about 8 MB
- Staff Email attachments: separate limits (see §7.1)

13. Quick troubleshooting

Issue	What to check
User missing a menu or Dashboard card	User Management permissions; Super Admin bypasses checks
Website Guide missing or 403	Only Super Admins see the card and can download the PDF
Security Log missing	Must be Super Admin role — cannot be granted via checkboxes
Cannot insert Fundraising photos	Open Fundraising, click the body, then Photo on the Formatting bar. Hard-refresh if Photo is missing. Save Changes to publish

Schedule Board still says Who	Hard-refresh CMS; the track field is labeled What
View Site opened a new tab	Hard-refresh CMS; View Site now uses the same window
Contact form topic is not General question	Confirm that topic exists and is active under Contact Form. Public form preselects General question / General Questions
Checkout / donate form missing	Square token + application id + location. Super Admin can connect them on CMS → Checkout if Cloudflare secrets are missing on that host
Site stuck on maintenance	Site Settings → maintenance mode; only Super Admins preview live pages with the gold banner
Cannot edit older minutes	Secretaries: 10-day window from meeting date; Super Admins can still edit
Calendar view-only	Expected without events / events:manage; grant permission to allow create/edit. Schedule Board is Super Admin / President / VP
Staff Email Reply-To wrong	Sender username must be a valid email
Changes not visible after deploy	Hard-refresh; confirm login/admin stylesheet ?v= version updated
Notify Me not working	HTTPS + supported browser; Brave: enable Google services for push messaging
Pay dues missing on Boosters	Site Settings → Boosters Pay dues toggle
Form Builder missing	Need Super Admin, President, forms, or a Form Builder extra-user grant
